Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4, 13 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Brewin U.S. Patent 2,875,771.

Brewin disclosed an apparatus comprising an inflatable bouncer having an inflated roof (32) (Fig. 3) with an inner portion (inner surface) and a periphery; the roof is supported at the inner portion by an inflated column (27) (column 2, line 26) (applicant's claim 1); an inflatable bottom section (20) having a periphery and a central area; the inflatable column (27) is coupled to the bottom section via columns (23, 25) proximate the central area of the bottom section (applicant's claim 2); a plurality of inflatable, outer columns (23, 25) coupled proximate the periphery of the bottom section (applicant's claim 3); the roof extends between the column (27) and the columns (23, 25) (applicant's claim 4). The method claims 13 and 14 are inherent from the disclosure of the structure of the inflatable bouncer as explained above.

Allowable Subject Matter

Claims 5-10, and 12, and 15-7 are allowed.

Claim 18 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
